# SWEEPS

## Fine Sweeps

- For dry sweeping of dust and fine particles on smooth surfaces
- Soft, lightly crimped, flagged polypropylene filament or 100% pure horsehair

## Medium Sweeps

- For dry sweeping of rough or smooth paved or concrete surfaces
- Tampico fiber resists heat and chemicals
- Wire center to loosen and remove soil and debris

## Heavy Sweeps

- Wet or dry sweeping of rough surfaces
- Palmyra is ideal for harsh conditions, greasy concrete and asphalt
- Polypropylene is not affected by water or petroleum products

# FLOOR SCRUB BRUSHES

## Natural Fiber Deck Scrubs

- Palmyra bristles are perfect for scrubbing rough surfaces or etching floors
- 36395 palmyra deck scrub has durable rubber squeegee built into block

## Silicone Carbide Impregnated Nylon Deck Scrub

- Silicone carbide impregnated nylon for aggressive floor scrubbing and stripping
- Use in corners, along baseboards and areas where floor machines can't reach

## Polypropylene Deck Scrubs

- Crimped polypropylene bristles are chemical resistant and hold solutions well
- Synthetic filament is not affected by solvents or acids; good for general scrubbing

## Dual Surface® Floor Scrubs

- Floor scrubs are made with three different brush surfaces for cleaning at different angles
- Non-absorbent plastic blocks and crimped synthetic bristles wash easily and prevent gathering of mold and mildew
- Handles not included; see pages 20-21 for handle information

## VEHICLE BRUSHES/MAINTENANCE

The Flo-Pac® Vehicle Brush line consists of convenient hand-held blocks, flo-thru styles, parts & detail brushes, as well as acid wash brushes. All specifically designed to provide professional results.

### Flo-Thru Bumper Brushes

- Flo-Thru design delivers a constant flow of water
- Densely filled with vinyl bumpers to protect vehicle finishes

### Flo-Thru Acid Wash Brushes

- Designed for use with phosphoric acid brightener solutions for exterior cleaning on cement trucks and other commercial vehicles
- Flo-Thru design delivers a constant flow of water

### Flo-Thru Dual-Surface® Brushes

- Dual Surface block design keeps the bristles working at almost every angle
- 36497, 361297 have five-hole fountain-style foam block to evenly distribute water across the face of the brush

### Acid Wash Brushes

- Designed for use with diluted acid on cement trucks or wherever phosphoric acid dilution cleaners are used
- One tapered and one threaded handle hole

### Parts Cleaning Brush

- Designed to hold and work solutions into intricate areas while removing oil, dirt and paint

# UTILITY WIRE BRUSHES

## Curved Handle Wire Scratch Brushes

- 45770 & 45773 for removing rust, metal burrs, paint, and varnish

## Toothbrush Style Utility Brushes

- Great for small jobs, tight areas, and detail work on ceramic tile, small parts, seams, threads, and soldered joints

## UTILITY & MAINTENANCE BRUSHES

### Polypropylene Bristle Utility Scrubs

- Chemical- and water-resistant bristles
- Crimped filament has better solution holding capabilities
- Light-weight plastic handles are break-resistant, soak-proof, sanitary and economical

### Polystyrene Bristle Scrubs

- Polypropylene block will not crack, chip or split
- Efficiently designed grip style handle allows for comfortable, efficient cleaning
- Light-weight construction allows brush to float

### Palmyra Bristle Utility Scrubs

- Efficiently designed grip style handle allows for comfortable, efficient cleaning
- Solid hardwood blocks with palmyra bristles

### Boot 'N Shoe Brush

- Helps eliminate bacteria, refuse and dirt
- Chrome steel tube frame can be bolted to the floor
- Brushes flip up to expose a steel scraper
- Non-absorbent plastic block with long lasting polypropylene bristles
- Base resins used to produce blocks and bristles are made of FDA compliant materials

# COUNTER/RADIATOR BRUSHES

## Horsehair & Horsehair Blend Brushes

- Provides scratchless dusting of highly polished and delicate surfaces
- Removes fine dust particles in commercial applications

36380

36211

36258

36259

## Natural & Synthetic Bristle Counter Brushes

- Big selection of synthetic fiber for dusting up sawdust, glass particles and everything in between
- 36211's flagged polypropylene bristles are ideal for fine particles, dust, and sawdust on smooth surfaces
- 36259's natural tampico bristles are ideal for light and medium duty tasks
- 36258's polypropylene bristle is good for general cleaning

## Radiator & Vent Brushes

- Has long handle to easily reach behind desks and cabinets
- Flagged bristles remove small dust and particles

## HANDLES

Carlisle offers a large selection of professional quality handles that include wood, metal, flo-thru, and fiberglass.

### Wood Handles

- All standard handles are made of lacquered wood for consistent dependability
- Available in a large selection of standard threaded and tapered styles, along with our Anchor™ Style
- Metal threaded end increases durability and handle life
- Tapered handles have precision cut tapered

40271

40281

45267

45270

40262

3620405

### 3-Piece Aluminum Handle

- Utilizes metal y-connectors to secure sections
- Packed in POS packaging for easy display
- Compact size saves on shipping costs versus standard 60" handle

40224

### Steel Handles

- Heavy-duty stainless steel handles are highly chemical resistant
- For use with caustic chemicals or in a sanitary food processing environment

45259

### Coated Metal Handles

- An economical alternative
- Soak proof handles won't crack or splinter
- Plastic hanging cap
- Reinforced, threaded metal tips for use with heavy/coarse floor sweeps

3620275

### Flo-Thru Handle

- Use with all window, wall, and vehicle Flo-Thru Brushes

40241

## Fiberglass Handles

- For use with push brooms, sweeps, squeegees, and floor scrubs
- Fiberglass handles are available in threaded, tapered/threaded and telescoping
- Self-Locking Flex-Tip Handle offers greater flexibility and reduces handle stress

40225

40210

## Roll 'N Grip Plus

- Constructed of light-weight, durable ABS and rubber
- Integral fold-up hanging hooks for smaller items
- For use in temperatures from -4°F to 176°F
- Grips accommodate items from 5/8" - 1-1/4" in diameter and 0.4 - 8.25 lbs
- Hanging hooks can hold up to 1.5 lbs each

# TRANSPORTATION

## Fold 'N Go® Carts

- Folds and unfolds in a single, quick and easy motion
- Each cart holds up to 350 lbs (approximately 116 lbs per shelf)
- Collapses to 9" width and 10.5" width; stores easily behind doors, in between counters, or in the back of your delivery van
- All bolts are lock-tight secured to remain tight even after extended use
- Sturdy polyethylene shelves are easy to clean; top shelf has ergonomically shaped easy grip handles at both ends for a fast, secure grip
- SBC1521 shelf measure 20.5" (l) x 15" (w); SBC2031 shelf measures 31.5" (l) x 18.5" (w); with 11.5" shelf spacing
- 4" heavy-duty non-marking swivel casters with molded-in metal reinforcement plates are permanently staked to .75" solid aluminum legs for longer life and added strength and rigidity
- Cart ships fully assembled; no tools or complicated latches required

# TILT TRUCKS

## Tilt Trucks

- Perfect for transporting bulky loads and/or consolidating smaller loads for more efficient transport
- Durable rotationally molded construction with sturdy, reinforced rim and molded-in handles
- Smooth inner surface makes cleaning easy
- Textured outer surface hides scratches and helps maintain daily appearance
- Easy on/off wheels for quick replacement
- Rear wheels: 5" swivel casters with rubber tread
- Front wheels: 12" HDPE injection molded wheels
- Made of post consumer recycled material
- Meets EPA recommended recovered materials content levels for office recycling containers and waste receptacles and is perfect for specifying on school and government agency bids

# WASTE CONTAINERS (CONT)

## TrimLine™ Waste Containers

- Corner tabs help keep trash bags secure
- Bottom helper handle makes lifting and dumping easier
- Optional swing lid conceals trash while providing easy touch-free access
- Handled lid also available for transport and odor control
- Lids fit both 15 and 23 gallon size containers
- Optional Wire Dolly fits on either narrow or wide side of 23 gallon size container; 100 lb weight capacity
- Custom hot stamping is also available, see page 29 for more information

# HOT STAMPING

## Customizing Waste Containers

Available for Bronco, 50 gal Rolling Waste and TrimLine Containers

**Lead Time** – 4 weeks from receipt of approved artwork.

For reorders, please allow 10 working days.

**Imprint Charge** – Contact Customer Service for imprint charges.

**Artwork Charge** – There is a one-time art and plate charge. Contact Customer Service more information.

**Available Ink Colors** – Black, White

# Colortech™ BRUSHES

## Only Colortech Rotary Brushes Outlast Floor Pads More Than 200 To 1\*

Rotary Brushes are the simple floor care solution. They clean more effectively, using nylon filament impregnated with Silicon Carbide grit. And, we offer a wide selection of rotary brushes to match all of your floor care needs including stripping, scrubbing and general cleaning of high traffic areas in office buildings, malls, schools, hospitals, and stores.

*\* Based on an independent 2009 University of Illinois Colortech Rotary Brush Study – Durability/Sustainability*

**For more information contact your Carlisle Sales Representative or visit our web site  
<http://catalog.carlisesmp.com>**

### Advantages over pads:

- Rotary brushes outlast floor pads more than 200 to 1, ultimately saving time and money
- Reduces packaging, storage and waste
- Lowers labor cost by reducing change out frequency and time
- Eliminates pad tearing and the need to re-center pads
- All rotary brushes utilize durable plastic blocks specially constructed to provide long lasting, superior performance
- Brushes perform well on all types of surfaces including new or old floors with uneven surfaces
- Solution feed design allows cleaning solution to flow through rotary brush block for thorough cleaning

**CARLISLE**  
SANITARY MAINTENANCE PRODUCTS

## Daily Cleaning For all High Gloss Floor Surfaces

- Specifically designed for daily cleaning of all High Gloss floor surfaces while still maintaining floor shine
- For daily cleaning of ceramic tile, concrete, marble, quarry tile, slate, terrazzo and VCT
- Irregular bristle length to assure cleaning on uneven surfaces
- Available in 11" – 20" diameter showerfeed blocks
- Great for grout lines less than .5" in width

## Light Cleaning Replaces Light Green Pad

- For light to medium cleaning of ceramic tile, concrete, marble, quarry tile, rubber floors, slate, terrazzo and VCT
- .018" nylon fibers impregnated with 500 grit silicon carbide
- Available in 11" – 20" diameter showerfeed blocks with 1.5" trim
- Great for grout lines less than .5" in width

## Cleaning Replaces Red Pads

- For medium to mildly aggressive cleaning of ceramic tile, concrete, marble, non-slip flooring, quarry tile, rubber, slate, terrazzo and VCT
- .022" nylon fibers impregnated with 320 grit silicon carbide
- Available in 11" – 20" diameter showerfeed blocks with 1.5" trim
- Great for grout lines less than .5" in width

## Scrubbing Replaces Blue Pads

- For aggressive top scrubbing of ceramic tile, rubber, terrazzo and VCT
- .035" nylon fibers impregnated with 180 grit silicon carbide
- Available in 11" – 19" diameter showerfeed blocks with 1.5" trim
- Great for grout lines less than .5" in width

## Stripping Replaces Black Pads

- Excellent for scrubbing of concrete and stripping of quarry tile, terrazzo and VCT
- .050" nylon fibers impregnated with 80 grit silicon carbide
- Available in 9" – 21" diameter showerfeed blocks with 1.5" trim
- Great for grout lines .5" or greater in width

## Aggressive Stripping Replaces High Productivity Pads

- Aggressive scrubbing of concrete and aggressive stripping of terrazzo and VCT
- .060" nylon fibers impregnated with 46 grit silicon carbide
- Available in 11" – 20" diameter showerfeed blocks with 1.5" trim
- Great for grout lines .5" or greater in width

## Concrete Floor Care

- Our most aggressive brush for scrubbing heavy soil from concrete in industrial applications
- .070" nylon fibers impregnated with 36 grit silicon carbide
- Available in 11" – 20" diameter showerfeed blocks with 1.5" trim

# PAD DRIVER & ACCESSORIES

## Short Trim Pad Driver

- .5" long, polypropylene bristles unevenly trimmed and widely spaced to hold a floor pad
- Available in 11" - 20" diameter
- Can be converted for use on some high speed machines\*
- Order with riser 3613511 for use with swing machines

Short Trim  
Pad Driver

## Long Trim Pad Driver

- Stiff polypropylene bristles trimmed to 1" long
- Available in 9" - 22" diameter blocks

Long Trim  
Pad Driver

## Pad Grab® Pad Holder

- Unique three piece construction, teeth on base and washer hold pad in place, retainer slides on the washer for easy pad installation and removal
- Fits most pads, from stripping to buffing
- Holds pads on center without tearing
- Molded of high-impact plastic for extra strength
- Easily and securely fastens to brush block with six screws, included

363522 – Pad Grab  
Pad Holder

## Pad Grab 2000 Pad Holder

- Includes 6 screws for easy mounting
- Made of high impact polymer for extra strength and long life
- Attaches quickly to different pad thicknesses and holds the pad on center without tearing
- Retainer ring always seats itself for proper pad positioning and leveling
- Eliminates right/left rotation considerations

363523 – Pad Grab  
2000 Pad Holder

# CONCRETE FLOOR PREPARATION TOOLS

## Scrape-Away®

- The productive, economical, and environmentally safe method for scraping and preparing concrete floors and stripping of film coatings, packed soils, ice, etc
- Equipped with 6 replaceable carbon steel cutter blades; each blade has 8 cutting edges; three replacement blades per set
- Available in 13", 15", and 17" sizes
- Scrape-Away can be fit with Grind-Away grit blocks
- Order 2" smaller than machine size

**Warning:** Do not use brushes, pads, or tools with flammable materials as serious bodily injury could result.

Scrape-Away and Grind-Away tools are designed for use only on 175 rpm rotary machines with 1 HP or greater. The heavy-duty circular aluminum casting has a 5" center hole, and an "N" series clutch plate is required. These tools cannot be used with riser blocks.

**Important:** All concrete floor tools are designed for use only by experienced rotary floor machine operators wearing protective eyewear, footwear, and dust mask. Always use the proper size standard 175 rpm rotary floor machine, equipped with the proper heavy-duty "N" series clutch plate. Do not use with "P" series or 364101 series universal clutch plates. Do not use with flammable materials.

# SOLVENT & CHEMICAL RESISTANCE INFORMATION

## Introduction

Solvent and chemical resistance refers to the ability of a fiber to retain its important physical properties. The resistance of fibers to chemicals depends not only on the type of fiber and the chemical, but concentration, temperature, time, fiber diameter, stress, etc. The following are general comments on solvent and chemical resistance, followed by a more specific table.

## Material Information

### Nylon

Nylon has excellent resistance to most substances. It is however attacked by oxidizing agents, organic acids, mineral acids and aromatic alcohols. Nylon has excellent resistance to hydrocarbons (such as gasoline, kerosene and diesel fuel), oils, cleaning solutions and alkalis. It will absorb small amounts of water, low molecular weight alcohols (methyl, ethyl or isopropyl alcohols) and chlorinated solvents and be plasticized to them.

### Polyester

Polyester has excellent resistance to most substances. It is resistant to acids, oxidizers such as hydrogen peroxide and most solvents. Polyester has excellent resistance

to hydrocarbon fuels, oils and lubricants. It is however attacked by strong alkalis such as concentrated solutions of sodium hydroxide (lye or caustic soda), calcium hydroxide (lime, mortar), ammonia, trisodium phosphate or sodium carbonate (washing soda, soda ash).

### Polypropylene

Polypropylene offers excellent resistance to most water soluble chemicals, including fairly strong acids or alkalis and simple hydrocarbons. It may be attacked by oxidizing agents such as hydrogen peroxide, chlorinated solvents such as 1,1,1-trichloroethane and aromatic solvents such as xylene, especially at higher temperatures.

## Ratings

**S: Satisfactory** – The material should give good service life when used with this chemical.

**M: Marginal** – Depending on temperature concentration, exposure, expected life, etc. The material may or may not give adequate performance. Specific testing for the application is recommended, or contact us for further details.

**U: Unsatisfactory** – The material will deteriorate in hours to weeks when used with this chemical.

# BRISTLE MATERIAL GUIDE

Choose the best brush for your specific application. To prevent bacteria growth, synthetic materials are the best choice with high quality natural materials a good alternate. Our fine selection of bristles offers you a choice of solutions for any application.

## SYNTHETIC BRISTLES

**Synthetic Corn** – Excellent chemical resistance. X-shaped bristle allows for superior sweeping on carpeting and entry mats. Ability to sweep liquids and dry debris. Superior longevity versus natural corn. Sustains temperatures up to 225°F.

**Synthetic Palmyra** – An ideal substitute with all the inherent properties of natural Palmyra. Bristle material has superior chemical resistance to acids, oil, fungus, and bacteria growth and withstands temperatures up to 225°F. A superior alternative that exceeds natural bristle performance.

**Nylon** – Excellent abrasion resistance, shear/break strength, and bristle bend recovery. Very good chemical resistance and sustains temperatures up to 350°F. Best choice for abrasive, rough use.

**Nylon Grit** – Nylon Filament with silicon carbide in each bristle is designed for use in general light scrubbing to heavy-duty scrubbing and stripping. Nylon Grit cleans floors faster and reaches into grout lines for thorough cleaning.

**Aggressive Nylon Grit** – An extra aggressive Nylon filament bristle material with Silicon Carbide Grit for scrubbing of heavily soiled floor surfaces.

**Polyester** – Excellent chemical resistance, ultra violet light resistance, and bristle bend recovery. Very good abrasion resistance and tear/break strength. Sustains temperatures up to 350°F. Best choice for all around use and for extreme exposure to cleaning chemicals.

**Polypropylene** – Excellent chemical resistance to acids, oils, fungus, and bacteria growth. Good abrasion resistance and shear/break strength. Sustains temperatures up to 225°F. Best choice as an economical synthetic foodservice alternative to natural fibers.

**Flagged Polystyrene** – A specially treated type of Polystyrene that has excellent bristle bend recovery and tear/break strength. Very good chemical resistance and fine bristle tip design resists matting for use up to 180°F. Best choice for floor sweeps and brooms.

**Polystyrene** – Has excellent bristle bend recovery and tear/break strength. Very good chemical resistance for general use up to 180°F. Best choice for floor sweeps and brooms.

**Teflon®** – Excellent heat resistance, abrasion resistance, and shear/break strength. Very good chemical resistance and bristle bend recovery. Sustains temperatures up to 500°F. Best choice for high heat uses.

## NATURAL BRISTLES

**Horsehair** – A natural pointed tip, good shear/break resistance, and soft cleaning properties. A fine synthetic bristle is an ideal choice as an economic alternative to natural horsehair.

**Boar Bristle** – Bleached and sterilized bristles can withstand temperatures of up to 500°F. Double boiling process ensures integrity of bristles over long life. Natural taper and split ends of boar bristle make this one of the best choices for high heat basting.

**Bassine Fiber** – Natural stiff and coarse fibers from India palms is a classic choice for heavy floor cleaning.

**Bass Fiber** – Natural African Bass Fiber is coarse, stiff, and provides good flexibility for use in upright floor sweeps and as a blend with other fibers for other applications.

**Palmyra** – Natural medium stiff fibers from India palms is an excellent choice for general floor sweeps. Provides good durability and bristle recovery.

**Tampico** – Natural Tampico fiber from the Mexican agave plant is a soft to medium soft bristle with very good durability. A medium synthetic bristle is an ideal choice as an alternative for natural Tampico.

**Stainless Steel Wire** – Rust-proof, excellent chemical resistance, excellent bend recovery, provides a high degree of abrasion and wear resistance. Best foodservice choice for aggressive cleaning on grills and other heavily soiled foodservice equipment.

**Carbon Steel Wire** – Provides a high degree of abrasion and wear resistance. Good bend recovery. Best choice for aggressive cleaning on grills and other heavily soiled equipment.

**Brass Wire** – Rust resistant; provides a high degree of abrasion but is softer than stainless steel or carbon steel to prevent equipment damage. For use on ovens, griddles, and other metal equipment that is heavily soiled but cannot sustain heavy scratches.
