

Guarantee and Warranty Statement

Since its foundation in 1995, Camtec Power Supplies GmbH has pursued an ambitious goal for its customers: the production of outstanding product quality with almost unmeasurable failure rates at an extremely fair price. Our production in our own factory proves every day that "Made in South Germany" is a promise of quality and durability, which has an internationally recognized and extraordinary status. At the end of each financial year, we collect statistics about the failure rates of our products in the field that have become known to us. The results of these evaluations range from 0.02 ‰ to 0.03 ‰. **So that our customers understand that quality is a promise to us, we give a 5-year product guarantee on all products listed here when operated within the product specification, and a 10-year warranty on fail-safe operation.**

Product line, all the models	Guarantee for product in years	Warranty for operation in years
ESB	5	10
CPS	5	10
HPV	5	10
HPW	5	10
HSE	5	10
HSEUIREG	5	10
HSEUREG	5	10
OSE	5	10
OSW	5	10
PSM	5	10
RED	5	10
UMS	5	10
