

PRODUCT DATA SHEET**POWER INDUCTOR****P7609 Family****Features**

- * Current to 3.8A
- * Low DCR (to 30mΩ)
- * Low profile (to 2.2mm)
- * Surface Mount
- * Flat top for pick & place
- * Electroplated terminals

Applications

- * DC-DC Converters
- * Notebook and handheld equipment
- * LCD TV sets
- * Consumer products

DESCRIPTION

The P7609 family comprises medium current, unshielded power inductors available in eight low profile sizes (2.2-5.4mm).

The range covers three decades of values from 1µH to 820µH, and provides very cost-effective and compact solutions for medium power applications.

In this family the electrodes are directly plated onto the ferrite. Such terminations provide excellent solderability, terminal strength and heat resistance.

The parts are suitable for conventional placement and reflow (Pb-free versions available on request).

Notes

1. Inductance measured at 1V, 8MHz (<10 μH), 2.5MHz (10-82 μH), 1kHz (100 μH -1mH).
2. Rated Current, I_{DC} , is the current at which the temperature rise is 40°C (max) or the DC current at which the zero-current inductance drops by 10% max, whichever is lower.
3. Operating temperature -20°C to +80°C.
4. For non-standard inductance values, please contact Profec.
